Mixed Practice Word Problems #7

1. There are 5 birds in a tree. How many bird legs do you see?

2. What does two dimes and 3 pennies equal?

3. There are 3 spiders. How many spider legs are there?

4. Karen wants to buy a pen that costs 75 cents. She has 2 quarters and 3 dimes. Does she have enough money?

5. Jeff has twice as many crayons as Joan. Joan has 12 crayons. How many does Jeff have?

6. Tim had 50 cents. He paid 45 cents for a candy bar. How much change will he get?

7. It is 2:00. What time will it be in three hours and forty-five minutes?

Answers

1. Each of the 5 birds has 2 legs each. So $5 \times 2 = 10$.
You see 10 bird legs.
2. 2 dimes $(2 \times 10) + 3$ pennies $(3 \times 1) = 20 + 3 = 23$
They equal 23 cents.
3. Each of the 3 spiders has 8 legs. So $3 \times 8 = 24$
There are 24 spider legs.
4. She has 2 quarters $(2 \times 25) + 3$ dimes $(3 \times 10) = 50 + 30 = 80$
Yes, she has enough because she has 80 cents and the pen costs 75.
5. $12 \times 2 = 24$
Jeff has 24 crayons.
6. $50 - 45 = 5$
He gets 5 cents change.
7. $2:00 + 3:45 = 5:45$
It will be 5:45.
