Mixed Addition and Subtraction Word Problems #9

1. Joe had fifty (50) toy cars. If he gets twelve(12) more cars, how many cars will he have then?

2. Maria had twenty-five (25) pieces of gum. Tommy gave her sixteen (16) more pieces. Luis gave her twenty (20) more pieces. How many pieces of gum does Maria have now?

3. There are sixty-four (64) pigs in the barn. Some more come to join them. Now there are eighty-six (86) pigs. How many pigs came to join them?

4. Rosa had sixty-seven (67) flowers. Andre gave her some more flowers. Now, Rosa has ninety (90) flowers. How many flowers did Andre give to Rosa?

5. Adolfo made a tower with thirty-five (35) blocks. He added some more blocks and now he has sixty-five (65) blocks. How many did he have to add?

6. Lucy put sixty-eight (68) shells in her bucket. She found some more shells and now she has eighty-nine (89) shells. How many more did she find?

7. Hugo had seventy-nine (79) stickers in his sticker book. He got some more to add to his book and now he has one hundred-twenty (120) stickers. How many did he add to his book?

Answers

1. 50 + 12 = 62
   Joe will then have 62 cars.

2. 25 + 16 + 20 = 61
   Maria now has 61 pieces of gum.

3. 86 – 64 = 22
   22 pigs came to join them.

4. 90 – 67 = 23
   Andre gave 23 flowers to Rosa.

5. 65 – 35 = 30
   He had to add 30 blocks.

6. 89 – 68 = 21
   Lucy found 21 more shells.

7. 120 – 79 = 41
   Hugo added 41 stickers to his book.
